## WORK EXPERIENCE

### Salgem Infoigy Tech Pvt. Ltd. | MERN stack developer

May 2024 - Present

- Actively involved in the development of a variety of software applications, including critical government solutions and innovative commercial projects, ensuring adaptability to different requirements and standards.
- Collaborated with stakeholders from various sectors, including government agencies and private organizations, to gather requirements, align project objectives, and deliver tailored software solutions that meet diverse user needs.
- Applied industry best practices in software development, including agile methodologies and quality assurance processes, to enhance project efficiency and ensure high-quality deliverables across all projects.

### Next Inology Pvt. Ltd. | Frontend Developer

May 2023 - Jan 2024

- Gained hands-on experience in software development through real-world projects.
- Contributed to the design, implementation, and optimization of key software solutions.
- Collaborated with cross-functional teams to deliver high-quality outcomes.

## PROJECTS

### UMC – Ulhasnagar Municipal Corporation | *React.js, Bootstrap, Node.js, Express.js, MySQL*

Official government portal for Ulhasnagar Municipal Corporation, designed to manage departmental content and citizen services.

- Developed and maintained scalable backend APIs using **Node.js** and **Express.js**.
- Designed a custom CMS with a secure **MySQL** schema for department-wise content management.
- Built a responsive frontend using **React.js** and **Bootstrap**, ensuring accessibility and usability.
- Handled deployment, created CI/CD pipeline, and performed server configuration and regular maintenance.

### KBMC – Kulgaon Badlapur Municipal Council | *React.js, Bootstrap, Node.js, Express.js, MySQL*

Government website for KBMC to manage civic services and department-wise content via a centralized CMS.

- Implemented RESTful APIs using **Node.js** and **Express.js** to support dynamic content updates.
- Engineered a modular frontend architecture using **React.js** and styled components with **Bootstrap**.
- Structured and maintained a secure **MySQL** database to store service data and administrative content.
- Set up CI/CD pipeline and deployed the application with full backend and database integration.
